

# Booking.com

## How much are the numbers worth?

For us the review **is very important**, remember to always **do it carefully**.

**Booking has a different system from Airbnb.**

About 48 hours after your stay, a message will arrive from Booking inviting you **to leave a review with an overall score from 1 to 10 to evaluate your stay experience**.

You can decide **to give a single overall rating from 1 to 10, which will be the one that will totally impact the review**.

If you have time, you can also evaluate other services and details of the structure, such as:

*Cleanliness, Comfort, Value for money, Services, Location, Staff.*

These aspects and **their scores are optional and do not affect the review score**, but they can help us improve our work.

thank you
